SCHOOL NURSE'S REPORT

To: Mr. Wade, School Board Members, and Citizens of Danville:

I am happy to report that for the first time in the history of the schools of our Union we have available the services of a speech therapist. Because Speech Therapy is a young field, this type of therapist is not available to many school systems. Speech defective children are much more numerous than we might suspect, and investigation shows that only one-sixth of them are being given the remedial instruction that they must have if they are to be helped. The response from most parents and from the P.T.A., sponsors of the program, has been enthusiastic. It is my hope that Speech Therapy will become an integral part of the school program.

Because of family responsibilities, our school doctor has had to give up her school connections on a regular basis. In spite of this, she has kindly offered to help with individual needs.

The position of Public Health Nurse no longer exists in this area. This means that pre-school clinics will be discontinued unless individuals or groups in the community plan and initiate such action.

Other health services aimed at maintaining and improving the health of school children are being carried on as usual.

Respectfully submitted,

CONSTANCE J. HUSS, R. N.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Many things have happened educationally in Danville this last year but standing paramount in all our minds is the fact that a new school has been voted by you the people, and that in September of 1961 your students will enter the new structure. I commend you for "a job well done." This though, is only the beginning. Now that we have a new building are we going to continue to provide the best education for our children or are we going to say we have our new building and therefore our part in supporting the educational program for Danville is finished.

Knowing you the people of Danville as I do I feel certain that now that you have your new school you will want to provide the best educational opportunity possible. This means that you must consider carefully your board's requests.

Most people will agree that the old building definitely affected the quality of education, however, a school regardless of the structure is only as good as the staff you have in it and the materials that you provide. The budget for the coming year has been very carefully planned. It is my belief that the items asked for are necessary for the proper operation of our new school.

Reference is made again this year to the questions brought to your attention last year in my report to you; mainly the type of education you expect and the type you are willing to support. We still need to reduce class size to 25 or 30. We still need a program of studies. We still need

a basic series in our subject areas. In addition one of the greatest needs in this Union is still help at the Union level. This is in relation to the position of Superintendent. It is unreasonable to expect anyone to fulfill all the obligations this person should fulfill as Superintendent of Schools and properly care for all the communities that are expected to be cared for in this Union. I feel it necessary to again this year request and emphasize the need for a Helping Teacher.

In looking over our needs listed last year it is noted that some of them have been fulfilled. For example, we are rapidly progressing toward a program of minimum essentials and a program of studies. We have improved our basic series in the subject areas. We have evaluated and made changes and are now using a new report card. We have developed and have only recently put into use a permanent record system that is universal throughout the Union. There is being offered an inservice training program for teachers, insignificant as it is at the present time, we are providing courses to improve teaching ability.

In conclusion I would like to offer to you as parents and citizens a challenge. Let us all search ourselves and others to determine what type of school is most desirable, ask ourselves if our school presently fits these requirements, and if not, attempt to create change so that it will.
